DETAILED ACTION

Response to Amendment

1. The rejection of claim 47 under 35 USC 112 1st paragraph, as set forth in paragraph 7 of the previous action, has been withdrawn in light of the present amendment.
2. The rejection of claims 31-39 and 47 under 35 USC 112 2nd paragraph, as set forth in paragraph 9 of the previous action, has been withdrawn in light of the present amendment to claim 31.
3. The rejection of claims 31-32, 34-39 and 47 under 35 USC 103(a) as being unpatentable over Bonin et al. in view of Lewis, or alternatively, Lewis in view of Bonin et al., as set forth in paragraph 11 of the previous action, has been withdrawn in light of Applicant's arguments pertaining to Lewis on p. 5 of the remarks. As Applicant pointed out, Lewis fails to teach or suggest bonding together two phosphate-based glass surfaces.
4. The rejection of claims 31-33 and 35-39 under 35 USC 103(a) as being unpatentable over Ammons et al. in view of Lewis, or alternatively, Lewis in view of Ammons et al., as set forth in paragraph 13 of the previous action, has been withdrawn in light of Applicant's arguments pertaining to Lewis on p. 6 of the remarks. As Applicant pointed out, Lewis fails to teach or suggest bonding together two phosphate-based glass surfaces.

Claim Objections

5. Claim 31 is objected to because of the following informalities: "composites" should be changed to --composite-- in line 2. Appropriate correction is required.

Double Patenting

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or

Art Unit: 1733

improper timewise extension of the “right to exclude” granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 31-39 and 47-48 **stand** rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 19-30 and 38 of U.S. Patent No. 6,652,972 in view of Bonin et al. and/or Sugahara et al., as set forth in paragraph 15 of the previous action.

Allowable Subject Matter

8. If Applicant files a proper Terminal Disclaimer to overcome the obviousness-type double patenting rejection set forth above, claims 31-39 and 47-48 will be allowed.

With respect to claim 31, although it is known in a variety of arts to use a solution containing a phosphorous compound to join two glass surfaces (see prior art cited throughout prosecution), the prior art fails to teach or suggest joining two **phosphate-based** glass surfaces by applying a solution containing a phosphorous compound to at least one of the surfaces, placing the surfaces into contact with each other, and retaining the surfaces in contact until the surfaces are joined together while the solution cures.

Conclusion

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
